## Invitation

Dear Friends,

It is our privilege to invite you to the Fourth edition of **Leadcon** on **1<sup>st</sup> Jun 2025** at **Le Meridien, Connaught Place, New Delhi**. organised by Lotus Diabetes India. In the recent times a lot has evolved and transformed in the knowledge of science and management of diabetes and its complications but a lot more is still unearthed. Leadcon provides an opportunity to keep abreast with the new changes and development in diabetes management and also share, learn and disseminate the experiences for the best care of patients.

The unique concept of Leadcon is to break the monologue and promote dialogue between the researchers and clinicians. As with previous editions it is expected to be attended by top most national faculty and delegates from all over India. The scientific program for Lead con is designed in a way that it shall provide a platform to the curious clinicians to interact with faculty and enrich their knowledge and skills.

We request you to support and join us in this upcoming endeavor.

Regards,

**Organizing Committee**  
**Lotus Diabetes Foundation**
